

Do you want to bet that you'll
be a perfect match for us?

Working Student Software Quality Engineering (m/f)

For our teams in Karlsruhe (Germany)

We are open-minded, multicultural and passionate about delivering pioneering software on various platforms. Our teams are cross-functional, self-organized and dedicated to success. We stick to our dynamic culture which fosters creative thinking, end-to-end responsibility and innovative visions. Hence, we are on the hunt for self-driven individuals (m/f) who want to join us because they like being challenged and love to work in a highly collaborative and agile environment.

YOUR RESPONSIBILITIES

- Performing cross browser tests for changes made to our website
- Reporting errors in a ticketing system (e.g. Jira)
- Creating test cases and related documentation (e.g. in Confluence, TestRail)
- Manual or automated testing
- Supporting the maintenance of our QA Test Labs (Hardware and Software)

YOUR KNOWLEDGE AND SKILLS

- Ongoing studies in Information Technology, Business Information Systems or related courses
- Open and willing to learn new technologies
- Basic knowledge of HTML, JavaScript and CSS
- Basic programming skills
- Fluent English
- Hands-on mentality

Nice to Have:

- Experience in Java or .Net
- Experiences in automated testing: Selenium WebDriver, JUnit, AssertJ, unit/integration testing
- German is desirable
- Quality assurance basics

YOUR ADVANTAGES WITH US

- Start-up feeling in a high-volume business and working in an exciting growth industry
- Company, team and sports events
- Fresh fruits, cold drinks and as much coffee as you can drink
