The Siemens Graduate Program

Your personalized career path.

If you really want to make a difference – make it with us.

As a world leader in developing and producing the most advanced engineering technologies, we improve lives and further human achievements worldwide, while also protecting the climate – all thanks to our employees. Working with us, you get the perfect conditions to develop both personally and professionally.

Join our program now and lay the foundation for your successful career with the Siemens Graduate Program.

Your benefits – international and career-oriented:

- You gain deep insights in three challenging eight-month work assignments in different functional areas
- You work abroad at one of our 1,700 international business locations for the period of 8 months
- You receive a comprehensive and state-of-the-art training to develop your personal and professional skills
- You profit from your personal mentor, who supports you to successfully achieve your career steps
- You join an international community of extraordinary individuals

Your qualifications – outstanding and diverse:

- You graduated above-average in your master's or doctoral degree or diploma studies
- You own a degree in electrical engineering or mechanical engineering, information technology, medical engineering, natural sciences, business administration or comparable
- You gathered at least 6 months international experience
- You gained some work experience and solid technical expertise from relevant internships or student placements
- You have excellent knowledge of English, additional languages are of course welcome
- You offer an outgoing personality with a high level of motivation and commitment

You have all the technical and personal qualifications? And you are about to finish your studies, or you already gained up to a maximum of twelve months work experience after obtaining your highest qualification? Then we would be delighted to shape the future of our company with you.

Getting in touch with us – straightforward and direct.
